AMERICA HOSTS THE WORLD

Every four years, the top amateur athletes from around the globe gather to compete for honor and glory on the world stage at the Olympic Winter Games. Some emerge victorious. Others endure defeat. But all are heroes to the millions who share in their achievements. ★ **The United States Mint**, together with Congress and the Salt Lake Organizing Committee for the Olympic and Paralympic Winter Games of 2002, is proud to honor the Salt Lake Games with a pair of stunning commemorative coins, the first for 2002. America's official 2002 Olympic Winter Games Commemorative Coins — one gold, one silver — provide a lasting emblem of the unique images, hues, and contrasts that will forever define our country's hosting of the Salt Lake Games.

FIRE & ICE

DRAMATIC COINS REFLECT OLYMPIC GLORY

America's known as a land of contrasts. And within our shores, perhaps no other landscape is as varied and captivating as that of Utah. The region's ethereal and majestic qualities mesmerize visitors. The Rocky Mountains' rugged snowcapped peaks rise suddenly from the vast plains, standing in sharp contrast to the chiseled arches and fire-hued canyons of the state's deserts. This majestic landscape provides the perfect backdrop for the drama of the Olympics to unfold from February 8–24, 2002. Celebrate the splendor and the majesty as the United States hosts the 2002 Olympic Winter Games. See and feel the contrasts: Deserts and mountains. Fire and ice. Gold and silver. Victory and defeat.

The 2002 Olympic Winter Games Commemorative Coins reflect the grandeur of these contrasting images with impeccable detail and attention to design.

OWN A Symbol OF THE Games

And with mintage limited to only 80,000 gold and 400,000 silver — the lowest for gold in modern commemorative history — these coins are sure to remain a prized keepsake of America's Games for many years to come.

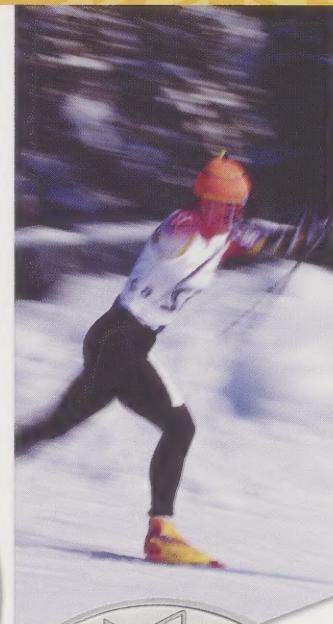

Coins are not shown actual size.

The Crystal Emblem signifying Salt Lake 2002 is emblazoned on the obverse of both the gold five-dollar and silver one-dollar coins. On the latter, it's joined by the world renown Olympic rings and "The Rhythm of the Land," a geometric pattern representing the unique textures and traditions of the region.

THE CRYSTAL EMBLEM

The top portion, or Amber, of the snowflake represents the Olympic Flame and the courage of the athletes. The midsection, or Sunset, is based on ancient weavings and reflects the culture of the region. The bottom portion, or Mountain Shadow, represents a snow-capped mountain crest, recalling Utah's striking desert-to-mountain landscape.
